MRS. RICHARD BOLT

Katherine Bolt—Mrs. Richard Bolt of 34 Temple Street—has been playing a new role this summer. This delightfully intelligent young woman, mother and playmate of three children and co-author of "Modeling for Motherhood", of which six thousand copies have been sold within six months of publication, is being heard this month over WHDH in the role of the wicked Clytemnestra in that Greek thriller, Orestes, by Aschylus.

MOORES RESIGNS AS DIRECTOR OF BOYS' CLUB

The Arlington Boys' Club committee has accepted with regret the resignation of Deane Moores as director of the Club. Their regret is shared by the boys themselves. He will go to the Hartford, Conn. club, which has a \$500,000 endowment and a membership two or three times that of the local club.

ARLINGTON NOW PART OWNER OF FORMER 'EL'

The Metropolitan Transit Authority acquired the property of the Boston Elevated Railway at noon, Friday, August 29, with the tendering of a certified check for \$20,297,490 by Carroll L. Meins, chairman of the Authority, and its acceptance by P. A. O'Connell, chairman of the board of directors of the railway company.

After the acquisition of the railway property by the Authority, Mr. Meins issued the following statement:

"The citizens of the fourteen cities and towns served by the Metropolitan Transit Authority today became the owners of the railway system operating in their communities."

"They now own a comprehensive transportation system which is one of the best equipped and maintained in the nation."

"The operating personnel, who have become employees of the Authority, are well trained, have built up an enviable safety record and realize their obligations to the passengers."

"From this day on, guaranteed dividends are eliminated at an annual net saving of \$610,402.50. In addition, the Authority will not be subject to Federal income taxes as in the past the Boston Elevated Railway has been. The resulting savings are helpful but the remaining fixed charges are still an exceedingly heavy burden. These fixed charges consist of subway rentals, interest on bonded debt and local real estate taxes."

"The trustees are directed by the Legislature to continue the studies for an extended, integrated and improved rapid transit system in the greater Boston area."

"The trustees will make it their primary concern to furnish safe, efficient, economical transportation within the area now served and they ask the active support of the riders, the taxpayers, public officials, the employers and the general public in making the publicly owned and managed railway the best local transportation system in the nation."

"The public trustees of the Authority met and, in accordance with the provisions of Section 19, Chapter 544 of the Acts of 1947, appointed the following general officers of the Authority: Edward Dana as General Manager, John H. Moran as Treasurer, Willis B. Downey as General Counsel, Charles A. McCarron as General Claims Attorney, and Thomas A. Dunbar as Comptroller."

"These men are outstandingly able and experienced in their respective capacities."

J. G. KEENANS OBSERVE 50th ANNIVERSARY

Flowers and cards of congratulation were showered on Mr. and Mrs. James G. Keenan of Palmer street last Saturday which was their fiftieth wedding anniversary. There was no formal celebration since their son, Emmett, and his family, whose home is in New Jersey, were unable to come for the occasion and to Mr. and Mrs. Keenan it did not seem that without them a celebration would be quite "kosher".

Mr. Keenan came to Arlington as a letter carrier May 1, 1897. Married to Louise Hassan in St. Mary's church, Cambridge, he brought his bride to Arlington where they have lived ever since, their first home being on Water street. Since his retirement as carrier on August 1, 1934, Mr. Keenan has helped his son in his Real Estate office.

Besides their two sons, the couple have seven grand children. In addition to these blessings, says Mr. Keenan, he won the Advocate's baseball tickets on his birthday. "What more could a man want?"

3-Day Program Planned

History Shattering Ball Game Under Lights Tonight

Defying the elements that defied them Tuesday night, Albion Spina's Pals will face the Lexington Town Team tonight (Thursday, September 4), under the mazzas at Spy Pond Field. Tuesday's downpour necessitated the postponement. A powerful lighting system will be imported to give fans and players daylight visibility. The game will automatically become a historic mark in the field of sports—local night ball for the first time.

The Towners from across the border boast a star-studded roster and the Pals will have their hands full.

News Briefs

Russia hails the ratification of peace treaties for Rumania, Hungary, Bulgaria, Finland and Italy as a major step in organizing peace, and considers three of the five (Rumania, Hungary and Bulgaria) ready to take their places in the United Nations.

As Lieut. Gen. Albert C. Wedemeyer leaves China he shocks government officials by uttering the most scathing denunciation of government ineptitudes ever issued for the record by an American envoy. He advises President Chiang to "purge his ranks and make the most of what he has."

The Chinese Foreign Office takes exception to a Moscow radio broadcast, claiming an "indisputable right" for Soviet shipping in occupied Dairen despite the Chinese ban closing the Manchuria "free port" to all foreign nations.

The end—for the moment—of the Greek Government crisis leaves Greece with a worse government from U. S. point of view and uncertain prospects for improving it. Britain remarks that the Americans have been operating "like a bull in a China shop and just as effectively". Dana Schmidt in the New York Times says. (Continued on Page 2)

Dies of Heart Attack as He Works on Tree

Thomas A. Aycock of Peabody suffered a heart attack Labor Day noon as he was working on a tree in front of 39 Ronald road, the home of Henry Uenas. He was pronounced dead when the doctor arrived.

Mr. Aycock, who is a tree surgeon came over on the holiday to help Mr. Uenas. With another man, the two were working on a tree when Mr. Uenas, looking up saw Mr. Aycock hanging by his feet. With the help of the other man he got him down. A doctor and the special service wagon were called at once but though the firemen worked over him with the pulmotor they were unable to revive him.

Medical Examiner Dr. David Dow found that death was presumably due to a coronary thrombosis.

A NEW YEAR FOR THE FAMILY

With children coming home from camp, parents returning from vacation trips, whole families coming back together from beach cottages and mountain farms, this season marks the happy reunion of families and a return to home life. Some churches open the fall with a Family Sunday when families are urged to mark their renewed solidarity by attending church services together, all seated in the family pew.

This is the Family New Year, much more genuinely than is the first of January. Members have interesting experiences to relate to each other; there is an upsurge of affection, a new appreciation of each other's good points. Members of the family have always loved one another, of course, but the summer's separation has emphasized this love.

Now, when there is this renewal of enthusiasm, is a good time to make resolves for this family new year. Many can resolve to help mother with the dishes, to tend the baby more often. Johnny can resolve to mow the lawn and run errands willingly and quickly. Both children can resolve not to quarrel.

There are many resolutions that parents might make. The foundation of all of them is the determination to give to each child, a sympathetic understanding of his problems.

The best resolution of all is to keep through all the year the realization of family unity that has come with the end of vacation and the coming of the school year.

ARLINGTON VISITING NURSING ASSOCIATION, Inc.
The service of the Arlington Visiting Nursing Association affords skilled nursing to all who need it. Due to the great shortage of nurses, and to the overcrowding of hospitals, patients are often sent home before they are able to care for themselves. This is where the visiting nurse comes in. She gives bedside, post natal and post operative care. She dresses wounds and gives treatments. Since we have entered the era of chemotherapy, the nurse is called upon to administer penicillin, liver and other medication intra-muscularly. In July, two nurses visit the vacation camps of the Camp Fire Girls and the Girl Scouts. They make examinations and give advice and instruction.

Young mothers are instructed in bathing and otherwise caring for their babies. After children reach two years of age, they may be brought to the pre-school conferences, which are held once a month at the Visiting Nursing office. The child is examined by a physician, weighed and measured. A check-up is made of teeth, tonsils, heart, lungs and posture. Instruction is given in diet and health habits. Much publicity has been given to the Well Baby Clinics. These are held each week at the Crosby and Locke Schools. A Baby Show, for many years has been held annually in June. Photographers from several of the Boston papers, took pictures of the prize babies. These were shown in the local and the Boston papers. On the front page of the pamphlet used in the last Red Feather Drive was the picture of Arlington's first prize baby.

Nurses visit the aged and the chronically ill. Often these are patients who require a great deal of time, patience and good cheer in caring for them. We are now caring for a large number of chronic patients, who must be cared for at their homes because of a shortage of beds in nursing homes. Members of the family must be instructed to carry on between nurses' visits. It is difficult to tell the full story of the comfort and happiness that the nurses bring to so many persons throughout Arlington.

A factual case of nursing is cited. Its history was written by Miss Caroling A. Fandel, Supervisor of Nurses: "Mrs. X, a very bad heart case, has been ill for four months. Because of a great difficulty in breathing, she was compelled to sit in a chair day and night. This caused a severe pressure sore on her back. The visiting nurse was called in. She immediately procured a hospital bed with a rubber mattress. Under the physician's orders, the sores were dressed and the pressure relieved. The family was instructed in caring for the patient between nurse's visits, particularly in attention to the bedding because of the constant draining of the sores. The family was most grateful for this nursing advice and assistance." This is only one of the many problem cases which every day confront the nurses.

This is the sixth of a series of articles that will appear in the local papers describing the Red Feather Services to which are allocated money that is collected in the Community Fund Drive, which will start about October 15 to collect for the 1948 Campaign Fund. The cooperation of everybody in Arlington is asked to make a success of the Drive by which these worthy projects benefit.

Wants the Advocate

Dear Mrs. Talcott:

Enclosed is check for \$2.50, covering my subscription to your paper for a year. About ten years ago when we moved to Arlington from Connecticut we read the Advocate on occasion, but as is often the case when moving to a new locality, we were unimpressed. However, since becoming acquainted with you through publicity from the Garden Club, I have read it every week and certainly find it interesting. My husband and son think your sports page excellent and in fact urged me to subscribe. I have been purchasing the paper at the Morningside Drug Store but last week missed out as they were sold out, so the family wants to be sure to have it every week from now on. Also want to mention the pictures are quite an asset and hope you continue them.

Thought you'd like to hear something nice about your paper. Too often we hear only the gripes.

Sincerely,
SARA L. GREINER.

A Message ADDRESSED TO THE PEOPLE OF ARLINGTON, BELMONT, BOSTON, BROOKLINE, CAMBRIDGE, CHELSEA, EVERETT, MALDEN, MEDFORD, MILTON, NEWTON, REVERE, SOMERVILLE and WATERTOWN

Last Friday at noon you became the owners of the Elevated. Hereafter, the railway will be managed and operated by the Metropolitan Transit Authority, created in 1947 by Chapter 544 of the Acts of the General Court.

Your ownership will save a net of \$610,402.50 annually by eliminating the outstanding common stock and the payment of guaranteed dividends thereon. Also, the railway will not have to pay Federal income taxes.

All this is good.

We wish that we could say that your ownership of the railway ends all financial worries connected with public transportation in this area.

But that is not so.

Right now we face this problem—for the first seven months of this year, the loss from operations of the railway has amounted to \$2,363,659.04.

Annual deficits have been caused by the heavy burden of fixed charges which the railway has to carry. Except for the fixed charges, the expenses of operating the railway have been well within income.

For the past 20 years, fixed charges have amounted to about \$10,000,000 a year. Of this amount, more than \$3,000,000 is paid annually to the Commonwealth of Massachusetts, the Boston Metropolitan District and the City of Boston for the purpose of paying off public indebtedness.

These fixed charges are:

Rentals on subways and tunnels owned by the City of Boston and the Commonwealth of Massachusetts, including provision to pay off the public debt incurred to build the subways.

Interest on bonded indebtedness, including provision to pay off the public debt of the Boston Metropolitan District.

Local real estate taxes.

Unless legislative action is taken which reduces the amount of the fixed charges paid by the railway—by having subway rentals borne in whole or in part through general taxation of the District and by relieving the railway of local real estate taxes—the operation of your railway within its present income will not be possible.

The public trustees believe that you, who are now the owners of the railway, would want to know that although the railway has been relieved of certain charges there is still a serious financial problem to be solved. And, as you can readily understand, this financial problem has been made even more difficult by the higher costs prevailing generally.

As to our main job—providing you with safe, efficient and economical transportation—we shall do all in our power to make this publicly owned and managed railway system outstandingly successful, mindful of our obligations to the riders, to the taxpayers in the cities and towns served and to our employees.

As directed by the Legislature, we shall continue the studies relative to an "extended and improved system of rapid transit in the Greater Boston metropolitan area."

You are now the owners of the railway system. Your dimes and the dimes spent by your family and friends will help to make it self-sustaining. Use your railway more—for shopping and for your trips to evening events in town.

Yours sincerely,

Tigers Still Champs All-Stars Defeat

A.Y.A. Reds, 7-5

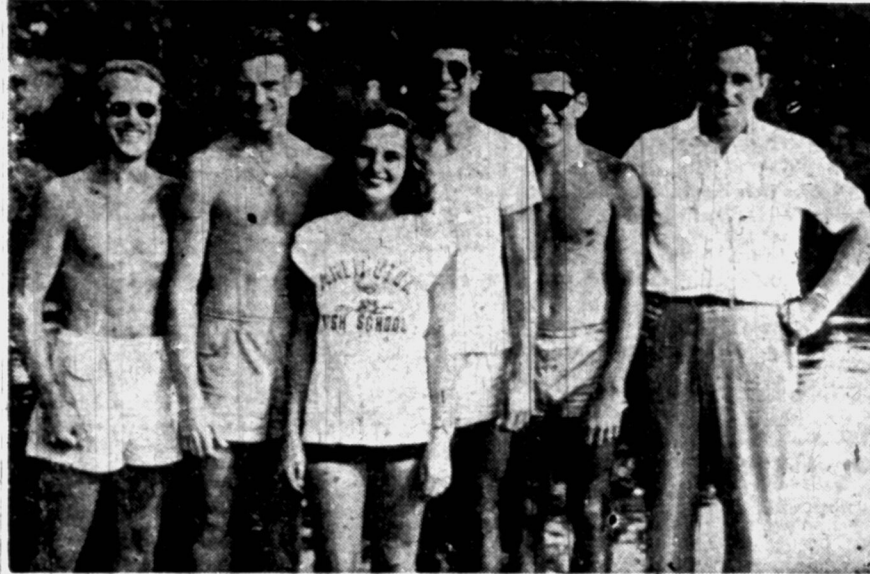

In the feature game of the A. Y. A. holiday double-header, the newly crowned champions, the Tigers, proved to the fans that it was by no fluke that they are the champs by defeating the league's All-Stars, 5-2. Without a bit of hesitation, they busted out in the first inning and scored five runs and from then on, the All-Stars staged an uphill fight which proved to be unsuccessful. Due to some pretty sharp fielding on the part of the winners, Iveser was selected by the Tigers to do the twirling and he did a masterful job in holding the All-Stars to a couple of hits. In the fifth inning he helped his own cause with a long triple to right field. Coppedisano was the opposing pitcher and outside of that first inning, he held the hard hitting Tigers scoreless.

TIGERS TAKE YANKEES' MEASURE TO TOP A. Y. A. CHAMPIONSHIP

Bengals Win Two Out of Three Series, 0-3, 7-5, 11-5. Dogged Persistence Pays Off. Final Game Protested.

Sunday afternoon at the Flor have fared better. Latsley, the once avenue Playground, Arlington's "little world series" came to an end when "Amy" Cappella's Tigers, winners of the second half defeated Warren Ryan's Yankees, the winners of the first half of the A. Y. A. Senior league, 11-5. This was the third and final game to be played as the teams had each won a game. The Yankees copped the first one when Glen Peterson threw a one hitter at the Tigers Thursday night at Thorndike Field, but Saturday afternoon the Tigers, living up to their name, came back growling and won a 7-5 overtime victory to even up the series.

The second game was an uphill fight for the Tigers as the Yankees stepped out in front in the first inning and scored three runs but Cappella's boys just didn't know how to quit and when they finally pulled it out of the fire they had plenty of confidence to bring into the final game with them.

In the finale, Coach Ryan came back with Peterson as his starting pitcher, and the Tigers called on Haugh to do the twirling. Peterson, although not pitching as well as his previous performances still did a good job and with a bit better support, especially on fly balls to the outfield, he might

Shoot That Gun --- We're Ready!

— Photo by John Doble.

Ready to go in the 15-yd. Midget race are (left to right)—Bob Hampton, the winner; Don McCarron, Shawn O'Halloran, and Bob Stewart, second place.

Junior A. Y. A. Championship Team

The RED BIRDS went through the entire A. Y. A. Junior League schedule without defeat. The Junior All-Stars spoiled a perfect season in a post-season game on Labor Day, downing the Reds, 7-5. First row—Robert Zani, Phil Morrison, Ronald Trenholm, Gerald Cobb, John Crane, Paul Collins, Bill Doherty. Second row—Hal Beals (coach), Paul Leonard, Robert Harriman, Dick Hill, Edward Szymanski, Tom Doyle, Harold Wells, Bob Hanlon and Leonard Russell (Baseball League Director).

Red Devils Battling For Honors

With their first game only 10 days away, the Arlington Red Devils are being whipped into shape by coaches Bill Coughlin and Ike Bevins. Spirits are high and all hands are eager for the opening whistle.

There is a battle of speed and power going on for the starting end assignments, with Kenally and brilliant finishing the speed and Sackas the power. The tackle and guard positions will be packed with power plus speed. Coach Bevins is thinking of putting the names of all the linemen into a hat and pulling the four starters out. That will give some idea of how tough it is. At the pivot post, Hugh Reagan seems to have the call unless he plans to continue his schooling.

In the backfield, Coach Coughlin has a wealth of material but trying to find the right combinations is proving very difficult. Dinny Shea and Tiger Graham are both capable ball handlers, operating from the "T" and they are both slight-of-hand artists with the pigskin.

The halfback position is where the boys are waging a keen battle. Paul Wells is a runner of the Buddy Young type, very quick and shifty. Muello, Vincent, and Hession are hard runners and can take off for T. D. territory at any time. Brick Preston and Bob Nickols are running from fullback position and are soon to be joined by Billy McAlinney, who is to report this week.

Both coaches are trying to take advantage of the free substitu-

tion rule and keep the boys on the go, so they will play the brand of football of which they are capable. If plans work out, the Red Devils will scrimmage the Navy Receiving Station (Fargo Baracks) this Saturday at 2:30.

All-Stars Lose, 7-1

Last Wednesday evening, the highly heralded Flamingo Club of Somerville, one of New England's leading softball teams, paid a visit to Spy Pond Field and defeated Johnny Buckley's All-Stars, 7-1. The All-Stars, it must be said, were at a disadvantage, as it was the first time this year that bunting and stealing were allowed in the game. This team apparently had not heard of Walter Ludka's reputation as a pitcher, so they proceeded to greet him like a long lost cousin. The winners got off to a good start in the second, when Busfield singled he scored. Shad Byrnes, the All-Stars' third baseman, came up with several good stops and as usual Tommy Prior roamed far and wide in

And Arlington Wins Again

By KILROY

A baseball fan would have to go back many years to find two residents of the same town pitching against each other in a major league ball game, as Joe Coleman and Micky Harris did last week. Arlington's first night baseball game had to be postponed last Tuesday night but, weather permitting, it will be played tonight. And the rumors are flying about a very nice position in Arlington that will soon be open for an athletically-minded young fellow. Charlie Kent, last year's Arlington High star, will be welcomed with open arms when he reports to B. U. and with him will be Gary Coyne who was such a thorn in Arlington's side when he played for the Mt. St. Charles Hockey Team. And for the first time in many years, it looks as if Arlington will have a real organized Semi-Pro football team. The Red Devils have ten games scheduled and should provide you Sunday fans some real entertainment. Tim McNamara, a pretty fancy halfback and forward-passer in the roaring twenties, is now affiliated with Gulf Oil Co. Jimmy Snow, who played tackle for Arlington, is with Lever Bros. And that young fellow who was backstage introducing Perry Como to his many friends was Jack Spina who used to manage our A. H. S. basketball teams. Jack at present is in New York in the music business and has been very successful. The loyal rooters of our A. H. S. football team report that our boys have a long way to come if the results of those two scrimmages mean anything. All roads lead to Tyngsboro Sunday for that A. Y. A. Outing, and Dan Barry still has a few tickets left if you want to enjoy a real good day.

St. James Edges D. A. V.

St. James' Intermediate C.Y.O. defeated Arlington D. A. V., 5 to 4, at Reservoir Field Sunday. Bob Smith started for St. James and held the Vets to two hits. Bob Murphy, who relieved him, continued the good work, allowing only three hits. The effective pitching of both St. James hurlers was the deciding factor. Smith struck out six and Murphy, eight. Ryan, with three hits, Richie Smith and Mucci with two apiece, paced St. James. Pessotti, with two was the Vets' best sticker.

St. James Intermediates have had a very successful season, winning ten and losing only two, under the coaching of Hugh Rice and Manager Ray Smith. The summary:

To be Disc Jockey
The Arm now will be known as the "Gib".
Tommy Dorsey, "the Sentimental Gentleman", whose great talent as a musician, arranger, and band leader, took him to the top of the popular music world, now has set aside his famed trombone to make his debut as a disc jockey here in New England on WHDH, Boston, starting Monday, September 8th.
From that date, Tommy Dorsey will be heard chattering around

TOMMY DORSEY

the platters of his new one-hour feature show on WHDH from 7 to 8 every evening, Mondays through Fridays.

Dorsey, in changing from a band leader to a disc jockey, has developed some very definite ideas of his own about what a platter show should be.
"I have derived a lot of them," says Tommy, "from my study of the popular music tastes of students, who now comprise a large portion of the dancing and listening public and who now are crowding our educational institutions to make up for time spent in the armed forces."

"I have found that these boys and girls want a tempo that is more conducive to conversation pieces than rowdy-dow, jitter bug, barrelhouse stomp.
"There's only one favor that Tommy Dorsey asks:
"Don't expect me to be another Bing Crosby. After all, how good can a pupil get?"

Unlicensed Driver

Hits Pole and Hedge
Henry F. Marchant of Topsfield was taken to the police station early last Saturday morning, after the truck he was driving along Pleasant street in the direction of Belmont, struck a traffic pole on the right hand side of the street at the corner of Irving, and broke down fifteen feet of hedge owned by Catherine Chisholm of 15 Belton street. Both truck and pole were considerably damaged. According to the police, Marchant had no license to operate and did not have the truck registration with him.

Mr. Leonard Wood
Arlington Advocate
Arlington, Mass.
Dear Mr. Wood:
Our Summer Playground program this year was very successful, in that attendance showed a big increase and the playgrounds abounded in activity.
With school not in session, our only means of advertising the program was through the media of our local papers. The space you so willingly gave for our program advertising, is indeed greatly appreciated.
Many favorable comments have also been received concerning the numerous pictures you printed in the Advocate of our various special playground events. This alone was responsible for a greater interest in our special event program.
The Board of Park Commissioners sincerely thank you for the splendid co-operation you have evidenced to this department throughout the program and wish you continued success in the future.
Very truly yours,
EVERETT J. HENDERSON
Chairman, Board of Park Commissioners.

Kaiser-Frazer Buys

Another Steel Mill

Henry J. Kaiser, chairman of the board, and Joseph W. Frazer, president, of Kaiser-Frazer Corp., automobile manufacturers, has announced the purchase of the Chapman-Price Steel Company of Indianapolis, Inc., a subsidiary of Continental Steel Corp. of Kokomo, Ind., according to the W. H. White Motor Company official, Arlington distributors of Kaiser-Frazers.

Kaiser-Frazer will take over the property, and management of the steel rolling mill on Oct. 1, thereby, according to the automobile officials, "further strengthening our basic material supply."

The Indianapolis mill has a capacity of 55,000 tons annually, —20 per cent of the amount of sheet steel Kaiser-Frazer uses in the current production of its automobiles, but with the mill, Kaiser-Frazer derives a new source of steel.

Just recently Kaiser-Frazer acquired the Round Oak Company Foundry at Dowagiac, Mich., a company with some 80 years' experience in gray iron castings.

garage on Swan place now occupied by the Patterson Tea Bag Company. There the two hundred members had two rooms, one for games and one for a gymnasium.

Four years ago the Club took over the Middlesex Sportsman's Association Clubhouse. Mr. Moore took full advantage of the increase in space, organizing new sports teams and starting classes in many kinds of handicraft.

From the opening membership of two hundred, the Club has increased to over seven hundred. After the end of the war, many former members returned to enjoy the Club. The senior basketball team is made up of veterans over twenty-one. Other teams are the Midgets and the Intermediates. Other recent features are the Friday night movies for which the Club has its own equipment and the Sea Scouts whose headquarters are there.

For the increase both in interest and in facilities, Mr. Moore gives credit to the hard work of public minded citizens.

Robert L. Moore, president of the Boys' Club committee, has appointed Roscoe O. Elliott, Albert H. Perkins, William G. Adams and Benjamin Hickey to assist him in securing a new director. In this work they have the cooperation of the National Office of the Boys' Clubs of America.

"made for fun and frolic"

Boys once themselves, Kalisteniks designers remember how young feet must run and play. So into every pair of growing boys' shoes goes sturdy leather for long wear, Allenite tips which can't scuff, patented seamless backs which can't rip. Kalisteniks bend flexibly with every foot motion so that young feet aren't cramped—but grow up straight, strong and healthy.

Mrs. Burns Attends

University of Dance

Mary Corbett Burns, Arlington's well known teacher of dancing, and producer of dancing revues, has just returned to her home on Pleasant street after completing an intensive course for teachers at the University of the Dance, Jacob's Pillow, Mass. Mrs. Burns was quite enthusiastic about the course presented in this beautiful Berkshire setting. Teachers of international as well as national reputation were on the faculty. Particularly pleasing was the renewal of friendships made with old teachers under whom Mrs. Burns had studied, both in Bermuda and in London. The University of the Dance is truly a university, says Mrs. Burns. It is completely equipped in both faculty and curricula to advance the art of dancing. She stated that in her opinion the time was not too far distant when Arlington, a town definitely interested in all the arts, would realize the dream of many of its citizens to complement its music and dramatic organizations with its own civic ballet.

One of the town's most active young citizens, Mrs. Burns is presently busying herself with the countless problems and duties connected with the opening of the annual convention of the Dancing Teachers' Club of Boston. Mrs. Burns is chairman of the convention.

LIGHT UP NOW!

... for school homework
... for longer nights ahead

For the sake of your family's eyesight, check up on your home lighting now. With another school term, there'll be hours of homework in the evenings. So make sure your child uses the proper study lamp.

September ushers in the season of longer nights, too, after Daylight Saving ends. Then your family will spend more time indoors reading, sewing, studying. That's why it's a good idea to spend a few minutes checking every lamp socket to see whether it is equipped with the right size bulb. Perhaps the kitchen fixture needs a new 150-watt bulb — and surely the study room should have the very best of lighting.

Make a list of your lighting needs and visit your Edison Shop. There you will find a complete line of lamp bulbs in every available size. There, too, you can shop for new floor or table lamps. We have a wide variety of handsome models.

Please remember — your Edison Shop is your Lighting Headquarters, eager to equip your home with Better Light for Better Sight. Call on us today.

Report from Europe

Mason R. Smith

An on-the-scene report to the ARLINGTON ADVOCATE, as a member of the National Editorial Association.

BRITAIN WILL COME THROUGH

London, July 10

A British newspaperman writing in the Evening News of this date described it as "grey, rain-swept, battered, unconquered London." He was writing of the King's unveiling of the Battle of Britain Memorial chapel in Westminster Abbey this morning, but the phrase would be apt on any occasion in this great city, in these times.

Years of coal soot from literally millions of chimneys pots—the outstanding characteristic of all British towns—have darkened the massive monuments and public buildings, old and new, and the scars of the war are visible on every hand. The "Jerries," so the British said, made no attempt at precision bombing but scattered their sticks of bombs indiscriminately. The result is that while occasionally whole city blocks were blasted out—the vacant spaces now used as parking lots—the principal damage is spread here and there in small sections all over the city.

You get a bit of a shock as you go down almost any street, to note a sudden, great gash in the face of the buildings—a hole in the facade of the thoroughfare. There it stands, empty and desolate, the interiors of rooms gaping out into the street, weeds and wild flowers growing in the debris that fills what was the basement. It may be a church, with its roof caved in, the steel girders twisted and broken sticking up into the sky, or it may be an apartment or office building, now partly occupied, the usable section still standing chipped and pockmarked from the blast. Other structures are framed in outside steelwork to hold them together, and some are padlocked as unsafe.

The cleanup has been amazing, considering the extent of the damage, but reconstruction and restoration are held up for scarcity of building materials. It has been said for years—both here and abroad—that the British are most splendid and glorious when they are "in the pinches." They are grim about it—as they look toward another Fuel Crisis this winter, and a Food Crisis before that.

People Favor Labor Party
The newspapers, magazines and the comedians in the musical shows are inclined to blame it all on the Labor government, but a careful study of notes taken in hundreds of conversations with the people in all walks of life suggests that in general the people

favor the Labor party, though they think Mr. Attlee's government has made some serious mistakes. Mistakes which, one Conservative admitted, might well have been made by Churchill's Coalition if it had been kept in power. "The times have a lot to do with it," he said.

There is a terrific shortage of dollars in Britain, and the money loaned by the United States is very nearly all used up. To buy the things she needs in American markets—food (especially), building materials, machinery—Britain needs dollars. Money she has loaned to countries in the so-called sterling bloc has in many cases been converted into dollars, which puts a further strain on Britain.

So she is exporting all that she can, to obtain more American dollars to fight her way up again. This means that the people must stand by to watch all kinds of goods which they themselves seriously need—automobiles, machinery, textiles, even whiskey—shipped abroad.

It hurts, but they take it stolidly "because we HAVE to do it to survive." They don't like the food rations—"the ration for one person for one month would not cover your teacup saucer—one egg a month, half a pound of meat a week."

And they don't like the clothing ration. A businessman, who feels that he "must be decent to meet the trade," finds it hard to obtain the clothing he needs for lack of coupons. If he buys clothes for himself, the rest of his family must go without.

LET'S KILL THE GOOSE

By DEWITT EMERY

(EDITOR'S NOTE: DeWitt Emery is president of the National Small Business Men's Association.)

In twice vetoing the same tax bill President Harry Truman contended that this is not only the "wrong time," but also that the bill passed by Congress represented the "wrong kind" of tax reduction.

It isn't necessary to search very far to find the reason behind his "wrong time." He unquestionably means that next year in the midst of his campaign for reelection will be the "right time," the time when he can get the greatest personal benefit from reducing taxes. However, his reasoning on the "wrong kind" is somewhat more obscure.

In support of his "wrong kind" of tax reduction, President Truman—some folks now call him "High Tax Harry"—points out that the average family with an income of \$2,500 under "HR 1" would receive an increase in "take home pay" of only 1.2 per cent whereas the average family with an income of \$50,000 would enjoy an increase of 18.6 per cent, and a \$500,000 income family an increase of 62.3 per cent. This is the usual half truth which the new dealers used so effectively for so many years.

Had President Truman completed his analysis here's what he would have had to show. At the present time the \$2,500 family is paying \$95 a year in income taxes; the \$50,000 family \$24,111; and the \$500,000 family \$406,600. This means that the Government takes 3.8 per cent of the net income of the \$2,500 family leaving it 96.2 per cent as take home pay; it takes 48.2 per cent of the income of the \$50,000 family leaving it 51.8 per cent; and it takes 81.3 per cent of the income of the \$500,000 family leaving it 18.7 per cent as take home pay.

The only thing I can make out of this is that the President attempts to justify his veto on the basis of "Forget about the eggs, let's kill the goose."

The British people who are maintaining their government with dollars furnished by American taxpayers have had their war time taxes reduced, and our Canadian neighbors, whose problems are closely akin to ours, have had their war time taxes reduced twice.

But the good old American taxpayer must carry on, staggering under the greatest tax load any people has ever had to bear. Why? Principally because President Truman insists on spending more than four times as much in fiscal '48 as has ever been spent by any American President in a peace time year.

In other words, "tax and tax, spend and spend, elect and elect" is still the order of the day, and it will continue to be so long as you folks—yes, I mean you—who pay the bill are willing to stand for it.

DISCS OVER AMERICA

The most amazing event in history is the appearance of unexplained discs over America. Their explanation is necessary to every Man and Woman in this country.

The amazing explanation involves not only the discs alone . . . but it answers the greatest and most potent of mysteries.

Why do anthropoid apes sit spellbound before two crossed sticks?

Why do children draw an arc one third of the way up a sheet of paper when confronted with the idea of death?

What is the meaning of the twenty-eight fires that struck at the exact center of the American population?

The answer to these questions is the most important information you have ever received. Send one dollar now for your copy of the survey, "Discs Over America". Mail to des Arc Foundation, Lake Forest, Ill. adv.
